INTRODUCTION
AND
GENERAL INDEX

- - - - -

R. L. POLK & CO., publishers of more than 1,400 other city, county, state and national Directories, present to subscribers and the general public, this, the latest edition of the Santa Rosa City Directory.

Confidence in the growth of Santa Rosa's wealth, industry and population, and in the advancement of municipal and social activities, will be created as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Santa Rosa and vicinity to the world.

The enviable place occupied by R. L. POLK & CO.'S Directories in offices, stores, libraries and homes throughout the country has been established by rendering the best in Directory service. With an unrivaled organization, and having the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Santa Rosa Directory will fulfill its mission as a source of authentic information pertaining to the community.

Four Major Departments

The four major departments are arranged in the following order: —

I. THE BUYERS' GUIDE constitutes the first major department of the Directory, printed on yellow paper. In the first section of this department, grouped under appropriate headings, are included the advertisements and business cards of firms and individuals desiring to make a complete presentation of their products or services. Following this is the Classified Business section which embraces a list of the names and addresses of all business and professional concerns of the city, arranged in alphabetical order under appropriate headings—a catalog of all the activities of the city. The Buyers' Guide represents reference advertising at its best, and merits the attention of all buyers and sellers seeking sources of supply or markets for goods. In a busy and diversified community like Santa Rosa, the necessity of having this kind of information up-to-date and always immediately available, is obvious. The Directory is the common intermediary between buyer and seller, and plays an important role in the daily activities of the commercial, industrial and professional world.

II. THE ALPHABETICAL LIST OF NAMES of residents, business firms and corporations for Santa Rosa is the second major department, printed on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Santa Rosa and the name, official personnel, nature and address of each firm and corporation in the city.

III. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE is the third major department, printed on green paper. In this section the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of owner occupied homes, the listing of telephone numbers, new householder symbols and Zip Code numbers.

IV. THE NUMERICAL TELEPHONE DIRECTORY is the fourth major department, printed on blue paper.

Community Publicity

The Directory reflects the achievements and ambitions of the community, depicting in truthful terms what it has to offer as a place of residence, as a business location, as an industrial site, and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference and serve as perpetual and reliable advertisements of Santa Rosa, for businessmen, everywhere, realize that the City Directory represents a community as it really is.

The Directory Library

Through the courtesy of the publishers of the Santa Rosa Directory, a Directory Library is maintained in the offices of the Chamber of Commerce for free reference by the general public. This is one of more than over 800 Directory Libraries installed in cities and towns throughout the United States, Canada and Puerto Rico through the courtesy of your Publisher.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

General Review

Location—The City of Santa Rosa is situated 52 miles north of San Francisco over the Golden Gate Bridge, on the world-famous Redwood Highway U. S. 101, which gives access to all the counties of northern California making up the Redwood Empire. Santa Rosa is twenty-one miles from the Pacific Ocean and fifteen miles from the Russian River.

Altitude—One hundred and sixty-seven feet above sea level.

Climatic Conditions—Santa Rosa has an ideal moderate climate, summer and winter. Warm and dry from April to October, summer trade breezes from the Pacific Ocean prevent hot spells and insure cool evenings. Year around average temperature, 57.6 degrees, average rainfall, 29.95 inches.

Churches—All leading religious denominations are represented and conveniently located both downtown and in the residential districts. Edifices vary from old and lovely traditional to the latest of modern functional. Church spires rise to dominate the comfortable community scene.

Schools—Santa Rosa's schools, 19 elementary, 4 junior high and 3 senior high, 1 Junior College, 1 parochial girls high school and 1 parochial boys' high school, are ranked high in the United States.

One of the world's finest and most modern hospitals is located Santa Rosa—the 219-bed Santa Rosa Memorial Hospital. It joins the modern 170 bed Community Hospital of Sonoma County and 60-bed privately owned Santa Rosa General Hospital to provide facilities that have attracted leading physicians from a wide area, who now live and practice in Santa Rosa. Medical facilities usually found only in large cities are available to Santa Rosans because of the splendid hospital system, including Warrack Hospital and Sonoma County Blood Bank. Numerous medical clinics and private medical offices surround the beautiful Memorial Hospital. In 1962 the non-profit Paul B. Kelly Cardiopulmonary Institute was constructed. Santa Rosa is the major merchandising, medical and services center for the Redwood Empire Counties of Lake, Mendocino, Sonoma and part of Napa (Est. population 280,000).

Industry—It is only recently that industry discovered Santa Rosa. More and more manufacturing plants are moving into this area, because of its strategic location as the gateway to the entire Redwood Empire and proximity to San Francisco-Oakland Bay Area (50 miles); because of the fine labor conditions existing here, where most workers are permanent and own their own homes and because of the low operating cost as compared with large industrial areas. Such industries as shoe factories, furniture manufacturing, feed, special disintegrating machinery, manufacturing, wineries, chemicals, space age instruments, insecticides, etc., pour thousands of dollars each month into the pockets of Santa Rosa workers. Santa Rosa is also a distributing center for nationally-manufactured articles. Over seven hundred sales representatives of national firms make their headquarters here.

5,000 watts, 1350 KC radio station KSRO was established in 1937, studio is at 627 College Ave. 1,000 watts, 1460 KC radio station KVRE was established here in 1962 on Bennett Valley Road. KPLS, 5,000 watts 1150 KC radio station established in 1964, in Coddingtown Shopping Center, 6,000 watts KZST 100 MC FM established in 1970 at 1059 College Av.

Newspapers—Santa Rosa has 2 newspapers, 1 daily evening - The Press Democrat and 1 weekly - News-Herald. The fine editorial staffs and modern equipment make them outstanding in the area they cover.

Agriculture—Santa Rosa lies in the center of a rich agricultural country. In 1970, $76,786,419 worth of agricultural products were marketed and sold in Sonoma County. Principal products are apples, apricots, cherries, grapes, peaches, pears, prunes, berries, walnuts, vegetables, seed, poultry, eggs and livestock.

Luther Burbank's Memorial Gardens—One of the best known of our local landmarks is the home and gardens of Luther Burbank. Agriculturists and horticulturists throughout the world have reaped untold benefits from his discoveries. The garden is a historical monument as of Arbor Day, 1965. Creator of the Shasta Daisy.

Freight Transportation Facilities—Northwestern Pacific R. R., Pacific Greyhound Lines, Petaluma-Santa Rosa Railroad and Hughes Air West, Golden Pacific and Golden West. Passenger—Greyhound Bus and airlines - Golden Gate Transit.

Banks—There are 16 banks in Santa Rosa, 6 Exchange Banks, 3 Wells Fargo Co's., 3 Banks of America, United California Bank, Bank of California, Crocker National Bank and California Canadian Bank with deposits totaling over $130,000,000.

Symphony Orchestra—Conducted by Corrick Brown, now in its 37th consecutive season, is known all over the Pacific Coast as an outstanding musical organization.

Sonoma County Fairgrounds—Scene of the annual Sonoma County livestock and agricultural fair, second largest county fair in California, has over three-quarter million dollars invested in improvements. Its extensive plant contains a huge exhibition building, farm machinery building, livestock quarters area, grandstand and race track. The annual horse racing purse is the third largest in the state. Scottish games for the entire western area are held here in September.

Study all directory advertising invoices carefully

Business and Classified Directory publishers under various names have flooded our mails for several years with solicitations resembling City Directory invoices. Most such solicitations state that they are not invoices, but nevertheless business people frequently overlook this and process them for payment.

What seems like an invoice may really be a carefully worded proposal for service—of an indefinite nature—and questionable value—to be rendered in the future, *if you pay in advance.* If in doubt, check with your local Better Business Bureau, or your established City Directory publisher.

Before you invest, investigate!

CAUTION...

Pay no money in advance to itinerant Directory canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of the publisher of this City Directory printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take advance payment for either advertising or subscriptions.

SERVICES

of R. L. Polk & Co.

CITY DIRECTORIES

Polk City Directories are published regularly for more than 1,300 North American cities. Each Polk Directory is the one complete inventory of residents and businesses in the community for which it is published. The facts compiled for a City Directory include the name, address, occupation and marital status of each resident; the name, address, ownership and classification of each business. The vast fund of information in a Polk Directory helps bring together buyers and sellers, facilitates credit, speeds deliveries and communication and stimulates business generally. Polk also cooperates in maintaining City Directory Reference Libraries in cities throughout the United States and Canada.

AUTOMOTIVE STATISTICS

Polk has served as statistician for the automotive industry for more than 40 years. Polk's total count of cars, trucks, motorcycles and trailers, by make and year model, is the only annual inventory of the nation's wheeled population. Polk's new car and truck reports furnish manufacturers and dealers with regular capitulations of all sales for each territory. To produce these statistics, Polk maintains one of the largest electronic data processing installations in the country. By using Polk statistical services, American business can plan intelligently its production, distribution and sales.

MARKETING SERVICES

Polk offers a full range of services to help businesses increase their sales volume. One of Polk's principal services is custom-produced selective mail advertising for many of the nation's leading advertisers. Other services include: Mailing and prospect lists, couponing and sampling, data processing services, publishing of controlled-circulation magazines, contest administration, fulfillment services, consumer and market research, warehousing and shipping, creative services and fulfillment services.

BANK DIRECTORY

Published semi-annually, Polk's Bank Directory is recognized as the outstanding reference book in the financial world. The directory carries detailed information on each of the nation's banks, showing officers, directors, branches, statement and other data. The book also includes a Summary of United States Banks, charts and statistics and a listing of governmental banking agencies and banking organizations. Polk also offers financial institutions a portfolio of marketing, advertising and research services.

CASHIERS! TELLERS!
CLERKS!

Do your employers furnish you with the latest edition of the City Directory?

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

WHY INVEST IN REAL ESTATE ?

Because it has inherent stability.
It has insurable value, whether vacant or improved.
Its history as to value shows natural continuous increase.
There is a limited supply.
It does not disappear overnight.
It is the basis of most great fortunes.
It has the possibility of great increase in value without the fear of total loss.
Property rights are protected by the Federal Constitution.
It is always saleable at some price.
It cannot be entirely shorn of its value by malicious manipulation. Other things can.
It can be made to pay for itself many times over without fear of loss.
It does not depend upon patents, manufacturing methods, personal managerial ability or commodity markets, to the extent that all other investments do.
It is the safest place in which to invest capital which you do not want to lose.
You can have personal control of your investment, whereby your individual judgment and action will offset the available benefits.
You generally have a higher net spendable cash income as compared with most other types of investments, due to depreciation factors.
You realize direct benefits from growth factors.
You gain certain tax advantages to implement your tax program.
Your investment is not subject as others to the day-to-day shifts in the general economy.
You have a valuable hedge against inflationary trends.
You derive great pride and security from ownership of a TANGIBLE PHYSICAL ASSET.
You have the opportunity to build an estate by equity financing.
You have greatest collateral for borrowing capacity, value wise, available.
Natural forces, without personal effort, increase value of your real estate holdings . . . equity gain, inflation, increment value.
You can pyramid holdings "tax free" by careful exchanging procedures.

People
with plans
save at Imperial

The kind of people who can grab a pole and fish in a pond. Wade in the surf. Try the swings at the park. Live right now for all life's worth. But still plan and save for the big things of the future. A new home. A vacation. Education. Retirement. These are the people who save at Imperial. People who make the most of every moment. People who get the most out of their savings, too. Because Imperial Savings pays the highest rates the law allows on insured savings.

Features and Departments of a City Directory

Your new, improved City Directory is the most complete and comprehensive catalog ever published of the inhabitants, business concerns and institutions of your city. It is much more than just an alphabetical list of names and addresses.

Your City Directory Contains:

1 An *Alphabetical* list of names and addresses of every resident, business concern and institution, plus wife's name and if a widow the deceased husband's initial, and the occupations of all. Principal officers or owners and a description of businesses are included as well.

2 A *Householders' Directory* including a Street and Avenue Guide. This section lists every street and where intersecting streets appear. It lists numerically every location on each street, naming the householder or business at each number and whether the person is a homeowner or renter and if he has a telephone. Similar information is provided on office and public buildings and their occupants.

3 A *Classified Business Directory* —listing every business, classified as to type, and showing names and addresses. It also lists every profession, club, society and association, hospital and cemetery, labor organization, library, park and playground and school.

4 A *"Yellow Section" or Buyers' Guide*, where the advertiser may explain in greater detail the services or products he has to offer.

5 A *Statistical and Historical Story* of your city; plus miscellaneous other information.

HOW TO LEARN OCCUPATION AND NAME OF EMPLOYER

Credit, Sales and Advertising Departments can quickly check this vital information regarding customers and prospects. Responsibility, probable approximate income and similar questions can be answered instantly by referring to your Directory. Complete information is provided on every employed person.

EVERY STORE

should appear in the Directory and the Directory should be in Every Store.

Besides its use to the storekeeper, it is a convenience the customer expects.

The store that offers an old Directory, or no Directory at all, fails to show its patrons a courtesy they will find elsewhere.

EXPLANATION

Wives' names are listed with husbands. The name of the wife is shown in parenthesis following the husband's as follows: Gregory Richd M (Mary L).

In case of a widow by death, wherever possible the name of the deceased husband is shown in parenthesis as follows: Gregory Mary L (wid Richd M).

The occupation and place of employment is listed as follows: Gregory Richd M (Mary L) slsmn Starr Clothing Co.

Names in **HEAVY TYPE** denote advertisers in this City Directory.

Ownership or co-ownership of a firm is indicated by showing the individual's name in parenthesis following the firm name, as follows: Carson Grocery Co (Geo B and Paul N Carson).

A firm name enclosed by parenthesis indicates ownership or co-ownership by the individual whose name precedes, as follows: Carson Geo B (Carson Grocery Co).

The head of the house is indicated by h preceding the street address; other members of the family and roomers are indicated by r preceding the street address.
